

RFID Experts Stud Master

Fully automated Sheep drafter.

RFID EXPERTS STUD MASTER SHEEP AUTO DRAFTER:

- Accurate hands free weighing and drafting
- Tru-Test XR5000 as standard component
- Integrated with management software e.g. BenguFarm Sheep & Goat
- Drafting according to multiple criteria e.g. weight, sex, dame, sire, breed, DOB, etc.
- Up to 5-way drafting
- **Increase efficiency and reduce the cost of labour!**

The RFID Experts Stud Master allows for fully automated weighing, drafting and record keeping. Sheep easily flow through the system, which enables the farmer to draft more than 500 animals per hour. At the same time all individual animal records can be transferred directly to Management Software e.g. BenguFarm Sheep & Goat which creates a paperless system.

Cattle Scale with H Clamp

For easy and individual handling of cattle.

FULLY RFID-INTEGRATED:

- Fast, accurate recording of weight and other data
- Increased efficiency and accuracy
- Galvanized rugged design and built to last
- Unique weighing plate design for consistent accurate weight recordings
- Hanging plate design allows for easy cleaning
- Additional features such as drafting, working gate modules, lead-up race, etc. also available
